75" ADVANCED INTERACTIVE DISPLAY

Hisense Interactive Display solutions deliver exceptional performance and market-leading value. Integrating the power of an interactive display and smart whiteboard, Hisense delivers the ultimate all-in-one display solution. Smart OS and ecological abundance, provides best-in-class user experiences while seamless wireless integration makes collaboration both simple and engaging. The display features Google Play Store, Android 13.0 operating system and optimized smart whiteboard to empower your interactive workflows.

Highlights

Anti-glare Glass

Featuring anti-glare glass and 400 nit brightness, this display reduces light reflection and maintains screen clarity in strong light, ensuring clear visibility of the viewers.

Android 13 & EDLA certified

Powered by Octa-core Processor and Android 13 OS, the display enhances system efficiency, stability, and compatibility. With EDLA certified, it ensures synchronization for built-in Google apps and accounts, providing access to Google Play Store, security updates, and certified Android applications.

Quick & Easy Screen Sharing

The screen sharing supports multi-OS compatibility, featuring high-security, high-stability, and low-latency performance. Built-in protection mechanisms effectively control unauthorized access, while its consistent wireless transmission capability ensures reliable support for continuous operation needs.

Smart Whiteboard

The display supports high-level multi touch and low writing height, allowing you to naturally and accurately capture ideas with near-zero latency. You can experience smart graphics, smart tables and handwriting can be easily converted to standard font.

Specifications
