

XIMGE SERIES

INDOOR LED DISPLAY

Designed for various indoor applications, this LED display delivers vivid, immersive visuals with exceptional durability and wide viewing comfort. Built-in redundancy¹ ensures uninterrupted performance, while creative cabinet² design enables striking 90-degree corner installations. Front-access maintenance and flexible mounting options simplify operation, accelerate deployment, and adapt effortlessly to diverse indoor environments.

Highlights

Customizable Brightness, Versatile Indoor Applications

Customizable brightness up to 3,000 nits allows the XIMGE series to adapt seamlessly to a wide range of indoor environments. This flexibility ensures optimal visual comfort under different ambient lighting conditions, delivering clear, consistent image quality.

Dual Redundancy, Uninterrupted Operation¹

The XIMGE features dual backup design for both receiving cards and power supplies, ensuring uninterrupted operation. It significantly reduces downtime risk, which is ideal for mission-critical indoor applications.

45° Beveled Edges, Creative Installation²

Featuring precisely beveled 45-degree edges on left and right modules, enabling perfect 90-degree corner joins, the 500x500mm cabinet supports cube and corner installations, empowering eye-catching and immersive visuals.

Reliable Front Maintenance

Full front maintenance with hard-connection design delivers stable and highly reliable solution. Modules can be serviced quickly from the front, saving space, reducing maintenance time and labor costs.

Extreme Installation Flexibility

Flexible installation methods allow wall-mounting, floor-standing, or easy suspension using a customized hanging structure. This adaptability simplifies installation, shortens project timelines, and enables the display to fit effortlessly into any indoor environments.

Energy Efficiency

The display delivers outstanding power efficiency, achieving 16% higher efficiency than the previous generation. This significantly lowers operating costs while reducing environmental impact, making it a sustainable choice for long-term indoor applications.

1. Only applicable for the 1,000 x 500 mm cabinet.

2. Only applicable for the 500 x 500 mm cabinet.
