

QUICK SETUP GUIDE

Before using the display, please read this guide thoroughly and retain it for future reference.

English

Safety Precautions

Make sure that the product is connected to a grid power outlet with a protective earth connection.

Disposal of Used Electrical & Electronic Equipment

Packaging and electrical goods should be recycled appropriately, and not treated as household waste. Please dispose of this equipment at your applicable collection point for the recycling of electrical & electronic equipment waste. By ensuring the correct disposal of this product, you will help prevent potentially hazardous to the environment and to human health, which could otherwise be caused by unsuitable waste handling of this product. The recycling of materials will help conserve natural resources. Please do not therefore dispose of your old electrical and electronic equipment with your household waste. For more detailed information about recycling of this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

Stability Hazard

Make sure the tilt angle between the display screen and the vertical surface is no more than 15 degrees.

The device set may fall, causing serious personal injury or death. To prevent injury, this device set must be securely attached to the wall in accordance with the installation instructions.

Environmental conditions

Operating temperature: 0°C~40°C

Operating humidity: 10%~80%RH

Atmospheric pressure: 86kPa~106kPa

For more detailed information, please contact the supplier who sold this product to you. The text of the EU/UK declaration of conformity is available at the following internet address: <https://www.hisense-b2b.com/>

Avoid dripping or splashing of liquids onto the product. Objects filled with liquids, such as vases, should not be placed on the product.

The product should be situated away from heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.

Incorrect replacement of the battery may lead to the risk, including the replacement of another similar or the same type. Do not expose batteries to heat such as sun or fire or something like that.

MAIN plug on the power cord is used as the disconnect device, the disconnect device and socket-outlet shall be easily accessible.

Insufficient ventilation will overheat the device and may cause damage to the device and even fire.
