

# HMD5G21S

# 21.3 INCH DIAGNOSIS MONITOR

Hisense clinical review displays are strictly conformed to DICOM standard, which can be widely used in clinical diagnosis, video browsing and image audit purposes.

# Highlights

#### **DICOM Part14 Standard**

The DICOM-compliant display accurately represents the subtle shading of medical images, and guarantees consistant display over time in different terminals.

#### **Wide Viewing Angle**

The wide viewing angle of 178 degrees can ensure the users from different angles can obtain the same image quality without colour cast.

#### **Eye-Protection and Energy-Saving**

Continuously monitor ambient brightness and adjust screen accordingly in time to reduce visual fatigue and enhance reading experiences.

#### **Intelligent Gamma Calibration**

Hisense patented intelligent GAMMA calibration technology is suitable for reading grayscale and colour images on the same screen simultaneously, which will improve reading accuracy.

### High Grayscale and Colour Processing

Using high-gray processing technology, you can obtain more smoother and precise images.

## Rapid Brightness Stability Technology

Quickly reach the brightness steady state within 10s after starting up, to ensure that the doctor can quickly carry out the diagnosis

# Specifications

Appearance	
Color	Matt black
Ergonomic design	The height adjustment range is 125mm, and the screen can be switched between the horizontal screen and the vertical screen, rotated 45 degrees left and right, and tilted 5 degrees forward and 15 degrees backward.
VESA installation pitch-row	100 x 100 (mm)
Buttons	Mechanical buttons (MODE, MENU, UP, DOWN, BACK, and Power)
Screen	
Backlight	LED
Screen size	21.3-inch
Resolution	2560 x 2048
Gray scale/color display	10 bits
Pixel pitch	0.165 x 0.165 mm
Brightness	3000 cd/m2 (typ)
Contrast ratio	2000:1
Response time	25 ms
Visual angle	178°, 178°
Image	
DICOM PART14	Yes
Data processing and display	(14-bit LUT data processing, 10-bit gray scale and color display)
	DICOMPAGE DICOMPAGE DICOMPAGE
lmage mode	DICOM300, DICOM350, DICOM400, DICOM450, DICOM500, DICOM550, DICOM600, DICOM650, DICOM700, DICOM custom, user mode, and ambient light mode
Image mode  Gamma curve	DICOM450, DICOM500, DICOM550, DICOM600, DICOM650, DICOM700, DICOM custom, user mode, and
	DICOM450, DICOM500, DICOM550, DICOM600, DICOM650, DICOM700, DICOM custom, user mode, and ambient light mode  DICOM/CT/MRI/DSA/DR/CR/
Gamma curve	DICOM450, DICOM500, DICOM550, DICOM600, DICOM650, DICOM700, DICOM custom, user mode, and ambient light mode DICOM/CT/MRI/DSA/DR/CR/ MM/1.8/2.0/2.2/2.4/2.6
Gamma curve  Color temperature (non-adjustable)	DICOM450, DICOM500, DICOM550, DICOM600, DICOM650, DICOM700, DICOM custom, user mode, and ambient light mode  DICOM/CT/MRI/DSA/DR/CR/MM/1.8/2.0/2.2/2.4/2.6  Specified (default)
Gamma curve  Color temperature (non-adjustable)  Brightness adjustable	DICOM450, DICOM500, DICOM550, DICOM600, DICOM650, DICOM700, DICOM custom, user mode, and ambient light mode  DICOM/CT/MRI/DSA/DR/CR/ MM/1.8/2.0/2.2/2.4/2.6  Specified (default)  0-100 stepping adjustment
Gamma curve  Color temperature (non-adjustable)  Brightness adjustable  Fast and stable backlight function	DICOM450, DICOM500, DICOM550, DICOM600, DICOM600, DICOM600, DICOM600, DICOM700, DICOM custom, user mode, and ambient light mode  DICOM/CT/MRI/DSA/DR/CR/ MM/1.8/2.0/2.2/2.4/2.6  Specified (default)  0-100 stepping adjustment  Support (backlight sensor)
Gamma curve  Color temperature (non-adjustable)  Brightness adjustable  Fast and stable backlight function  Long-time stable backlight function	DICOM450, DICOM500, DICOM550, DICOM600, DICOM600, DICOM650, DICOM700, DICOM custom, user mode, and ambient light mode  DICOM/CT/MRI/DSA/DR/CR/ MM/1.8/2.0/2.2/2.4/2.6  Specified (default)  0-100 stepping adjustment  Support (backlight sensor)
Gamma curve  Color temperature (non-adjustable)  Brightness adjustable  Fast and stable backlight function  Long-time stable backlight function  Ambient light compensation	DICOM450, DICOM500, DICOM550, DICOM600, DICOM600, DICOM650, DICOM700, DICOM custom, user mode, and ambient light mode  DICOM/CT/MRI/DSA/DR/CR/ MM/1.8/2.0/2.2/2.4/2.6  Specified (default)  0-100 stepping adjustment  Support (backlight sensor)  Support (ambient light sensor)
Gamma curve  Color temperature (non-adjustable)  Brightness adjustable  Fast and stable backlight function  Long-time stable backlight function  Ambient light compensation  Saving energy control for body sensing	DICOM450, DICOM500, DICOM550, DICOM600, DICOM600, DICOM650, DICOM700, DICOM custom, user mode, and ambient light mode  DICOM/CT/MRI/DSA/DR/CR/ MM/1.8/2.0/2.2/2.4/2.6  Specified (default)  0-100 stepping adjustment  Support (backlight sensor)  Support (ambient light sensor)  Support (human sensor)
Gamma curve  Color temperature (non-adjustable)  Brightness adjustable  Fast and stable backlight function  Long-time stable backlight function  Ambient light compensation  Saving energy control for body sensing  Auto menu rotation	DICOM450, DICOM500, DICOM550, DICOM600, DICOM600, DICOM650, DICOM600, DICOM600, DICOM700, DICOM custom, user mode, and ambient light mode  DICOM/CT/MRI/DSA/DR/CR/ MM/1.8/2.0/2.2/2.4/2.6  Specified (default)  0-100 stepping adjustment  Support (backlight sensor)  Support (backlight sensor)  Support (ambient light sensor)  Support (human sensor)  Support (gravity sensor)
Gamma curve  Color temperature (non-adjustable)  Brightness adjustable  Fast and stable backlight function  Long-time stable backlight function  Ambient light compensation  Saving energy control for body sensing  Auto menu rotation  One-click lamp box function	DICOM450, DICOM500, DICOM550, DICOM600, DICOM600, DICOM650, DICOM700, DICOM600, DICOM600, DICOM700, DICOM custom, user mode, and ambient light mode  DICOM/CT/MRI/DSA/DR/CR/ MM/1.8/2.0/2.2/2.4/2.6  Specified (default)  0-100 stepping adjustment  Support (backlight sensor)  Support (backlight sensor)  Support (ambient light sensor)  Support (human sensor)  Support (gravity sensor)
Gamma curve  Color temperature (non-adjustable)  Brightness adjustable  Fast and stable backlight function  Long-time stable backlight function  Ambient light compensation  Saving energy control for body sensing  Auto menu rotation  One-click lamp box function  Maximum power  Power supply specification	DICOM450, DICOM500, DICOM550, DICOM600, DICOM600, DICOM650, DICOM700, DICOM600, DICOM650, DICOM700, DICOM custom, user mode, and ambient light mode  DICOM/CT/MRI/DSA/DR/CR/ MM/1.8/2.0/2.2/2.4/2.6  Specified (default)  0-100 stepping adjustment  Support (backlight sensor)  Support (backlight sensor)  Support (ambient light sensor)  Support (human sensor)  Support (gravity sensor)  Support  < 80 W
Gamma curve  Color temperature (non-adjustable)  Brightness adjustable  Fast and stable backlight function  Long-time stable backlight function  Ambient light compensation  Saving energy control for body sensing  Auto menu rotation  One-click lamp box function  Maximum power	DICOM450, DICOM500, DICOM550, DICOM600, DICOM600, DICOM650, DICOM600, DICOM650, DICOM700, DICOM custom, user mode, and ambient light mode  DICOM/CT/MRI/DSA/DR/CR/ MM/1.8/2.0/2.2/2.4/2.6  Specified (default)  0-100 stepping adjustment  Support (backlight sensor)  Support (backlight sensor)  Support (ambient light sensor)  Support (human sensor)  Support (gravity sensor)
Gamma curve  Color temperature (non-adjustable)  Brightness adjustable  Fast and stable backlight function  Long-time stable backlight function  Ambient light compensation  Saving energy control for body sensing  Auto menu rotation  One-click lamp box function  Maximum power  Power supply specification  Power indicator	DICOM450, DICOM500, DICOM550, DICOM600, DICOM600, DICOM650, DICOM700, DICOM600, DICOM650, DICOM700, DICOM custom, user mode, and ambient light mode  DICOM/CT/MRI/DSA/DR/CR/ MM/1.8/2.0/2.2/2.4/2.6  Specified (default) 0-100 stepping adjustment  Support (backlight sensor)  Support (backlight sensor)  Support (ambient light sensor)  Support (furman sensor)  Support (gravity sensor)  Support < 80 W  Green and orange

Input and output control	
Input	DVI-D x 1, DP x 1
Output	DP daisy chain
USB	One upstream interface and two downstream interfaces
Series interface	Upstream USB interface reused
DDC communication	Support
Fixing equipment	Base
Display improvement	
DICOM conformance error rate	Within 5% (allowing 3% fluctuation)
Others	
Others  Trademark on the front shell	Hisense Medical
