

CASE STUDY

BUZZ BINGO

Project Description

Buzz Bingo in the UK has elevated its customer experience with the installation of a stunning Hisense LED display. Measuring 12 metres wide by 2 metres tall with an ultra-fine 2.6mm pixel pitch, the display delivers exceptional clarity and vibrant colour, ensuring content is immersive and impactful across the entire venue. The large-scale LED solution provides a dynamic platform for live content, promotional messaging, and brand engagement, helping Buzz Bingo create an exciting and modern entertainment environment.
