

CASE STUDY

FACQ FLAGSHIP SHOWROOM

Project Description

Facq is a well-established brand in Belgium. Together with our software partner HTV Led, we provide a complete and reliable display solution for their showrooms and pro center. The displays deliver a more dynamic showroom experience with high brightness suited to showroom lighting, optimized for 16/7, 18/7, and 24/7 operation, and feature an integrated content management system for remote control across multiple locations.
