

CASE STUDY

FRAJNI D.O.O

Project Description

Frajni d.o.o in Serbia has enhanced its workplace collaboration with the installation of a Hisense GoBoard Live interactive display. Designed to bring teams together, the GoBoard Live enables seamless presentations, video conferencing, and real-time content sharing, making meetings more productive and engaging. With its intuitive touch interface, wireless connectivity, and powerful collaboration tools, the GoBoard Live has transformed the way Frajni d.o.o conducts internal discussions and client presentations.
