

CASE STUDY

EVERAU

Project Description

At the Everau retail store in Australia, a 163" Hisense All-in-One LED display has been installed to deliver high-impact visual communication within the retail environment. The large-format LED solution combines seamless integration with exceptional brightness and colour performance, creating an immersive focal point for promotional content and brand storytelling. Designed for commercial reliability and visual impact, the installation enhances customer engagement while reinforcing a modern, premium in-store experience.
