

CASE STUDY

POLISH MOUNTAIN PROJECT –
CABLE CAR STATION

Project Description

Hisense LED displays have been installed at the waiting hall and exit of the Gubałówka funicular lower station in Zakopane, Poland’s renowned mountain resort town at the foot of the Tatra Mountains. Delivering bright, captivating visuals that withstand high-traffic indoor environments, Hisense LED products enhance the visitor experience by providing clear information and engaging content to tourists passing through this popular alpine attraction.
