

CASE STUDY

SCOTCH COLLEGE

Project Description

Scotch College in Australia has transformed the way it communicates across campus with the installation of Hisense 24/7 digital signage displays in a variety of sizes and locations. From classrooms and corridors to common areas, the displays deliver clear, reliable messaging that keeps students, staff, and visitors informed and engaged. Designed for continuous operation, the Hisense displays provide a robust platform for timetables, announcements, event information, and dynamic content, ensuring communication is always visible and up to date.
