

CASE STUDY

SUANDUSIT UNIVERSITY

Project Description

Suandusit University, a well-established public university in Bangkok, Thailand, has transformed its teaching and learning experience with the installation of Hisense WM6FE interactive displays across its campus. The WM6FE delivers responsive touch interactivity, seamless wireless screen sharing, and intuitive plug-and-play operation, keeping students engaged and lectures dynamic. Designed for modern education, the WM6FE provides an all-in-one platform that integrates whiteboard, presentation, and video conferencing capabilities, ensuring every lesson is clear, interactive, and impactful.
