

CASE STUDY

ZIEMOWIT COAL MINE

Project Description

Hisense All-in-One LED displays have been installed in the conference room of Ziemowit Coal Mine, one of Poland’s major hard coal mines operated by Polska Grupa Górnicza (PGG). Delivering superior image quality with seamless installation and integrated functionality, the All-in-One LED enhances meeting efficiency and collaboration, providing a professional-grade visual solution tailored to the mine’s operational needs.
